

Project Proposal

My project will be a tarantula/invertebrates online store. It will have the following features:

1. Home Page
 - a. this will include carousel with specials, offers etc
2. Species Catalog page
 - a. This will include the unordered list with pictures of each product
 - b. It will also include the scroll bar in order to reach all items of list
 - c. each product will also have a link to the Wikipedia page describing that species
 - d. the user will be able to add things to their shopping cart etc.
3. Subscribe page
 - a. This will have the form to subscribe to receive special offers and alerts
 - b. It will include a survey of the user's interests
4. Shopping cart page
 - a. this will allow the user to remove things from their cart
 - b. enter in their credit card info
 - c. enter in their shipping address
 - d. Depending on what is added to their cart—Care sheets for that type of tarantula will be made available for free download
